Business Analytics and AI graduate (UT Dallas, Cum Laude) who turns messy data into go-to-market and operations decisions. Builds competitive analyses, dashboards, and AI-assisted workflows, and explains the reasoning to executives.

EXPERIENCE

- Lead GTM Strategist Intern**, Resilient Privacy (pre-launch IT operations SaaS startup) Aug 2026 - Present
- Built a scored competitive matrix across 7+ ITSM/IT-ops vendors and designed a competitor classification framework to sharpen platform differentiation ahead of launch.
 - Delivered differentiation recommendations to the CMO that were incorporated into the company's action plan, and flagged product gaps that led leadership to investigate new features.
- Business Analyst & Team Lead**, Verbalytics (UT Dallas Capstone) Jan 2026 - May 2026
- Led a 5-member analyst team through a 16-week engagement for a B2B healthcare SaaS startup, building a go-to-market strategy that earned 100% executive buy-in.
- Data Analyst Intern**, UT Dallas Basic Needs Resource Center Feb 2026 - May 2026
- Unified 3,000+ rows of student sign-in data and built interactive Tableau heatmaps, cutting leadership's report-generation time by 40%.
- Digital Product AI Strategy Extern**, News Corp Aug 2025 - Oct 2025
- Analyzed behavior data from 750+ surveys, built an A/B testing framework across onboarding flows, and benchmarked 8 competitors into 6 recommendations for executives.
- Data Management Intern**, Avishkar Technology Aug 2024 - Jan 2025
- Designed SQL-based ETL pipelines automating daily Snowflake loads of 10k+ rows at 99%+ accuracy and built Power BI dashboards that cut manual processing time by 25%.

SELECTED PROJECTS

- AI-Assisted CRM Data Quality Workflow** (Claude, Excel) Sep 2026
- Automated a CRM data-cleaning workflow that routes ambiguous, invalid, and duplicate records to human review, cutting manual checks from about 100 rows to about 20.
 - Built an Excel rule-based cross-check against Claude's labels that surfaced 6 disagreements on a 46-row synthetic test, exposing gaps in the prompt and rules.
- SmartFit Watch 3 Sentiment Analysis** (Python, NLTK, TextBlob, LDA) Aug 2026
- Wrote the full analysis pipeline, scoring sentiment across about 5,000 reviews and using LDA topic modeling to surface 5 recurring customer themes.
- Marketing Mix Modeling & Attribution** (Excel, regression) Jun 2026
- Unified Google, Meta, and TikTok Ads data and derived spend multipliers, including a \$2.10 return per \$1 on Google, validated at $p < 0.05$.
- 1st Place, Alteryx & RSM Case Competition** (Alteryx, Power BI) Oct 2025
- Led a team to 1st place in a national 6-hour Datathon, cutting projected travel spend 15% and transit hours 18%.

SKILLS

Data and analysis SQL (Snowflake, MySQL, PostgreSQL), Python (Pandas, NLTK), R, Excel (VBA, DAX), ETL, A/B testing, statistical testing
BI and tools Tableau, Power BI, Alteryx, Databricks, Visio
AI Claude, Cursor, LangChain, Groq API, prompt engineering
Strategy Go-to-market strategy, competitive intelligence, stakeholder communication

EDUCATION AND CERTIFICATIONS

- University of Texas at Dallas**, B.S. Business Analytics & AI, Finance & Risk Analytics May 2026
Concentration, Cum Laude, GPA 3.67
- Collin College**, A.A. Business, Cum Laude, GPA 3.8, Dean's List and President's List May 2024
- Certifications** AI/BI for Data Analysts (Databricks), Data Analyst in Python, McKinsey Forward Program
- Leadership** Transfer Mentor (selected to represent UT Dallas at the NASPA Strategies Conference), Emcee at Telugu Student Association, Marketing Manager at Business Professionals of America
